

# Nano Acid Cleaner

## Acid Cleaner for Condensers

**Nano Acid cleaner** is an acid-based cleaner. Thanks to its properties, it efficiently descales limestone, rust and smog traces, removing even the most stubborn sediments. The product must be diluted. The cleaner is ideal for restoring neglected installations, improving their efficiency, and it is particularly suitable for dissolving the sedimented dirt in splits of finned coils. Avoid contact with delicate and painted surfaces.

- ✓ FOR CONDENSERS
- ✓ DILUTION 1:8

- ✓ ACID-BASED
- ✓ INCRUSTATIONS
